

Not your typical RCM. This is RCM designed for medical billing companies.

Alliance EBS by Nobility, our **enterprise billing solution** created exclusively for medical billing companies, reduces your overhead and improves collection metrics. We scale with you as you grow. We help you prepare your exit strategy when it's time. Unlike other companies wanting access to your clients, you maintain full control over your accounts. In fact, our agreement with you mandates this because we're only interested in making you better.

Protect your clients. Protect your profits.
